ABOUT ALET INDIA

Established in 2017, Alet India Softwares is a technology-driven software development and IT consulting company delivering innovative digital solutions to businesses across the globe. With a growing international presence spanning more than 10 countries, we help startups, emerging businesses, and enterprises transform ideas into scalable, secure, and high-performing digital products.

Our expertise spans Custom Software Development, Mobile & Web Application Development, AI & Data Solutions, Salesforce Solutions, Game Development, Cloud Computing, and IT Consulting. By combining technical expertise with a business-first approach, we develop solutions that address real-world challenges, streamline operations, enhance customer experiences, and support long-term business growth.

At Alet India, we embrace emerging technologies and modern engineering practices, including Generative AI, Machine Learning, Intelligent Automation, Cloud-Native Architecture, Microservices, API-First Development, DevSecOps, and CI/CD Automation. Our approach emphasizes performance, security, scalability, and maintainability, ensuring that the solutions we build are prepared for evolving business requirements and technological advancements.
